**YOUR HANDPICKED GUIDE TO THE BEST WEDDING
BLOGS, APPS, INSPIRATION SITES, PLANNING TOOLS,
SHOPPING SITES, AND EVERYTHING IN BETWEEN.**

WELCOME TO THE WEDDING WEB

Wedding planning is a different beast than it was 5 years ago thanks to the arrival of the smartphone, the app culture and our obsession with social media.

We've become used to instant information. We expect it.

Typing in our credit card number online is no big deal and for brides, this is a wonderful thing. Why limit yourself to the local salons and stores when you can have the entire web at your disposal?

The downside of limitless options is that there is a lot of junk to filter through. There's an app, a blog and a store for EVERYTHING. Which is why we've gone out and found the "everything" for you – from the obvious brands to the little guys to the hot new startups.

Here's a list of our favorite websites, apps and blogs that will help you get your creative juices flowing and start your planning and shopping process on the right foot.
